

SALUT - CODES – Information service of Lund University

How to connect your extension to SALUT, Information service on when you will be back.

1. Press the button for ***23*** in the feature menu on the phone.
To get to the feature menu press arrow - right.
Important! IP-telephone AVAYA 4602 presses **923** instead.
Same procedure if you are using a mobile extension.
2. Press the code (read text below) followed by time/date. End with #.
Important! You no longer press * between code and time/date.

State time with HHMM and date with MMDD.
